

Dhanesh Sudhakar Palekar

Akola, Maharashtra, India | 9503076028 | [LinkedIn](#) | dhaneshpalekar21@gmail.com

Objective

Motivated Computer Science student seeking an internship or entry-level position where I can apply my skills in Java, Web Development, and Data Analysis to build efficient, user-focused applications and contribute to meaningful projects.

Education

Bachelor of Engineering (B.E.) in Computer Science Engineering

College of Engineering and Technology, Akola

CGPA: 7.32 (3rd Year) | Expected Graduation: 2026

HSC: 80% | SSC: 84.80%

Technical Skills

Languages: C, Java, Python

Frontend: HTML, CSS, JavaScript, React.js (Basics)

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Other Tools: VS Code, Eclipse, MySQL Workbench

Soft Skills: Problem Solving, Team Collaboration, Communication

Projects

Integrated City Information & Services Management System (Java, Swing, JDBC, MySQL)

- A modular public service desktop application with city info, hospital management, ticket booking, banking/ATM, and university modules.
- Designed Swing UI, implemented JDBC CRUD operations, and built scalable OOP-based architecture.

Restaurant Management Web Application — MERN Stack

- Built a full stack restaurant management system using MongoDB, Express.js, React.js, and Node.js.
- Developed REST APIs, dynamic UI, and handled complete frontend-backend integration with efficient database operations.

Weather Forecast Application

- Created a weather app that fetches real-time weather data using a public API. Displays temperature, humidity, and conditions based on user location input.
- *Technologies Used:* HTML, CSS, JavaScript, OpenWeather API

Certifications

- SQL, Core & Advanced Java Training — SEED Infotech Ltd., Pune (2025)
- National STTP – Java Full Stack with React JS & AI — AICTE & COET Akola (2024)
- Software Engineering Job Simulation — Accenture (Forage), 2025
